PROFILE

Web developer with 3 years of experience using HTML, CSS and JavaScript to build all aspects of the user experience and user interface for client-facing pages, mostly using React JS library. Committed to creating high presentation UI with exceptional handling to enhance the user experience, with focus on understanding of users, what they need and what they value.

SKILLS

FRONT-END WEB DEVELOPMENT

- Using CSS and CSS frameworks for styling and making Responsive designs.
- Using JavaScript to make web pages more interactive and user friendly, and understanding DOM manipulation.
- Using and understanding modern ReactJS and its concepts such as hooks, props drilling, creating reusable components and custom hooks.
- Navigating using React Router Dom
- RESTful API development with HTTP Methods and CRUD Operations.
- Globalized State Management using Context, React-Redux, Redux-Toolkit.
- Version Control using Git, and GitHub.

You can check some of my projects in my [GitHub Repo](#).

LINUX OS

My experience with Linux/Unix based Operating systems and Linux CLI comes from curiosity and desire to learn.

GAME DEVELOPMENT

Experience with C# programming language and Unity for Game Development.
